

August 2010

Attention Students and Parents:

The Littleton District is pleased to announce the arrival of HomeLogic. HomeLogic will allow students and parents (Grades 3 - 8) to log on and view grades and attendance from the Internet. It is easy to use and will allow you to stay current with the progress your child is making in school. This will also allow you to email the teacher if you have any questions about assignments or grades. It is uncomplicated and all you need is an Internet connection (home, work, library etc.).

Go to our website [www.littletonaz.org](http://www.littletonaz.org) and click on parent access and then click on your school. You will be directed to a log-in page where you will enter your username and password.

Follow these easy steps to have your username and password assigned:

- Complete this form and return it to school or fax it to 623-478-5885
- Check your e-mail for username and password
- Go to the parent access link on our website
- Log on to HomeLogic
