

What is ParentVUE/StudentVUE?

The Littleton Elementary School District #65 is pleased to provide students and parents online access to a web-based (and mobile) application designed to help students and parents monitor student's education by providing the latest academic and demographic information about the student. The StudentVUE and ParentVUE portals are user-friendly and simple to navigate, and we anticipate you and your student(s) will benefit from having online access to daily attendance and grades. If you are the parent of more than one student attending the district, you will have access to information on each student within your single ParentVUE account.

Link To The Login Page By Using:

The ParentVue App

Using an iOS or Android phone/device, download the app
ParentVUE by Edupoint Educational Systems

or

A QR Code Reader App

Using an iOS or Android phone/device, download an app such as
Quick Scan or *QR Code Reader by Scan*. Once you have downloaded a QR
Code Reader app to your phone, scan the 'Parents as Partners' code on the
student agenda or the code to the right to link directly to the login page.

or

A Mac or PC

Go to www.littletonaz.org click Parent Information and scroll down to ParentVUE to login. To initially set up the account you will need the activation code provided by the classroom teacher. Please contact the teacher or the front office for the activation code.
