

CHAMPIONS

THEY'LL PLAY. THEY'LL LEARN. THEY'LL SHINE WITH CONFIDENCE.

You can count on Champions to spark those 'aha' moments that help your child reach their full potential—in the classroom and the big world beyond. How do we do it? It's all in the way we teach. We keep their creativity and curiosity soaring, all while laying a strong learning foundation for their bright futures.

Boosting Brain Power!

From memory games to team competitions, we're here to sharpen those academic and executive function skills. Every activity is designed to teach kids how to work together, solve problems, and pursue their goals.

Asking Big Questions!

We light up the path to discovery with an inquiry-based learning approach. Through hands-on STEM activities, your child will have the freedom to explore, investigate, and draw evidence-based conclusions—just like scientists do.

Building Relationships!

With daily social-emotional lessons in community building and character development, your child will become more self-aware, make clear decisions, and start building friendships.

Safe environments with snacks so your kiddo can thrive mentally and physically.

Talented teachers who keep the learning party going when school's out.

Homework help to free up family time in the evenings.

Outdoor adventures to keep their bodies moving and laughter booming.

Creative arts, reading, math and construction, or team games—the choice is theirs.
